

March 10, 2004

Ms. Joyce Wise
The Folsom Center
401 Arnold Street
Cullman, Al 35055

Dear Joyce:

You're gone & done it again!!!
The Folsom Center has made the

&
family very happy.

Recently had
to be admitted to your facility with
a rare disease called PSP. Not
only did you research the illness
and treatment plan specifically to
fit his needs; but your staff also
offered some possible life-saving
suggestions to help in
his swallowing/food intake
problem.

-2-

When Mother, was
in the Center, our family felt such
relief and comfort that she was
in the best possible place with
expert staff at her side. I again
feel the same way with
care and treatment.

Thank you again & please
thank your staff for the tremendous
care, love and compassion they
show and give to and
all the other patients in the Folsom
Center.

Sincerely,
Pat
