

June 6, 2012

Dear Mrs. Freeman,

My father, Mr. [redacted], passed away at Falkville two months ago on Good Friday morning. I am writing on behalf of our family to thank you, the nurses, CNA's, therapists, doctors and staff of Falkville Health Center. As hard as it was to have Dad in your care rather than at home, we knew it was in his best interests. You all treated Dad with love and affection and gave him great round the clock care. Dad told me "they're good people and I like the food, too." Even though he missed being home, he too, was appreciative of all you did for him.

Thank you also for your support the last weeks of Dad's life as family endeavored to be with him round the clock.  
God bless you always. Sincerely,
